ENJOY THEM

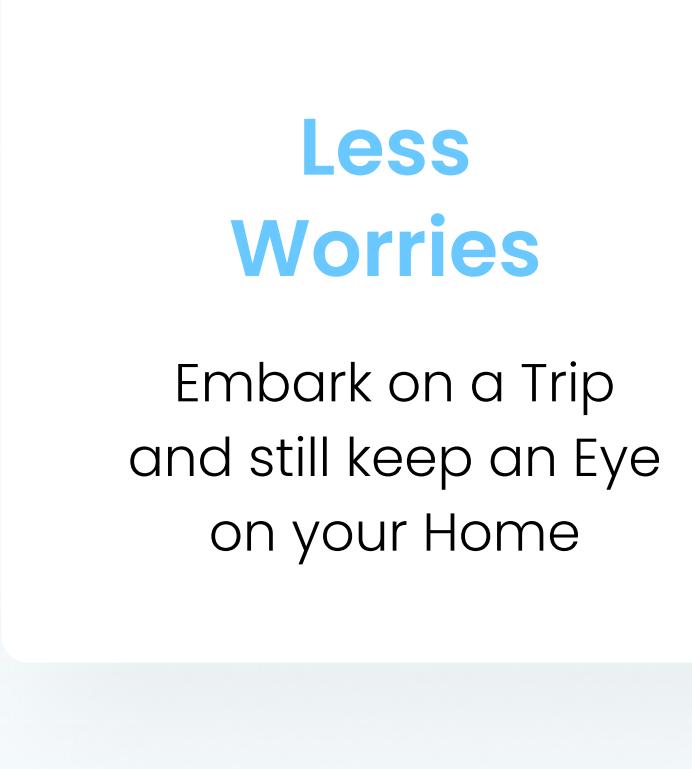

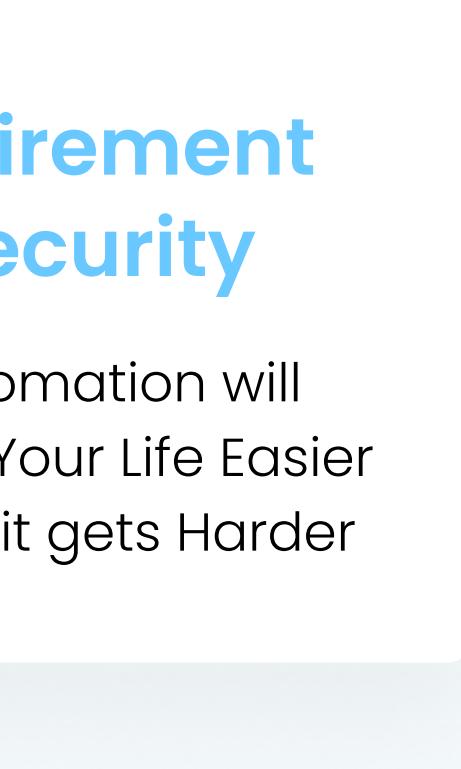

ENJOYING YOUR HOME AT THE END OF THE DAY IS ALL YOU WANT?

Difficult day, you want to enjoy your evening at 100%. You come home, feel cold, turn on the heating and wait for the right temperature to spread. You start preparing dinner, meanwhile you go into the living room and turn on the TV. Run back to the kitchen, you can't get away for too long... You finish cooking and head back to the living room to watch a movie. You left the lights on.. you don't want to, but you have to. Get up and go turn off the lights. How nice it would be if everything were more comfortable and easier, just think...

DO IT AT THE BEST

Now imagine: you come home tired and you want to enjoy your evening, but when you get back, the perfect temperature is already waiting for you. You cross the threshold, the lights turn on, and when you leave each room, the lights automatically turn off. While cooking, with a click, you hear the TV turn on. Prepare dinner. Leave the kitchen, the lights turn off. You sit on the sofa. Everything is perfect. Enjoy your next evenings like that...

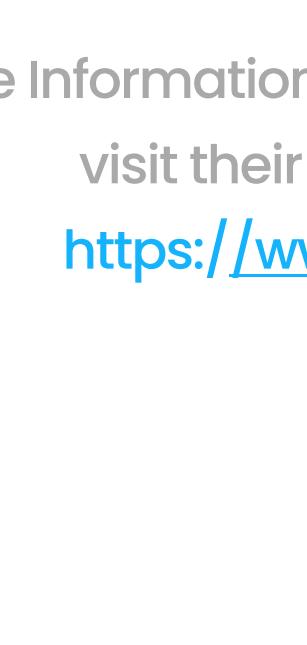

HERE'S WHAT IT MEANS

This is what it means to automate your home. It means treating yourself to unlimited comfort, thanks to the system's infinite customization possibilities; it means safety, thanks to automated alarm systems; it means simplicity, because you can control your home 100% with your voice or with a click; it means investment, because all this will give your home higher value in the eyes of anyone; it means realizing a dream.
